

HOPE GAINS 23.7 PER CENT

HUNDREDS OF STUDENTS AND POLICE BATTLE

Many Students Arrested After Big Celebration

Students Clash With Police at University of Pennsylvania

BIG BATTLE ROYAL
Fight Starts When Officer Turns in Riot Call

PHILADELPHIA, May 1.—(AP)—Director of Public Safety, Lemuel B. Schofield, was arrested today as the result of a controversy growing out of a battle on the campus of the University of Pennsylvania between police and students during which it is believed upwards of 300 students were arrested. They were released later, however.

The warrant was sworn to by Michel J. Calby, republican candidate for the legislature of this city who charged that Schofield violated the act of assembly of 1915 and refused to permit police sergeants copies of the charge.

A short time before the disorder began the students had attended the annual Ivy week celebration. The affair is said to have started when an excited policeman turned in a riot call when he saw a crowd collecting. Hundreds of policemen and students joined in the clash shortly before midnight. The struggle became a big battle royal with officers pushing into stores, cafes, and fraternity houses, driving everyone who looked like a student.

Many of the residents refused to permit officers to enter and in some cases axes were used to force entrance into homes and many locks were shot off during the melee.

Worker is Resting Quietly at Hospital

George Maris Seriously Injured in Slip From Truck

Reports from a local hospital today said George Maris, aged 25, who received a fractured skull when he fell from a truck yesterday afternoon is resting quietly and physicians have hopes of his recovery.

Maris, employee of the American Telephone and Telegraph company, and formerly of St. Louis, Mo., was riding one of the company's trucks when it turned a corner into highway 67 in front of the city hall, losing his balance, he slipped and fell to the pavement, his head striking the pavement. He was picked up by other employees of the company and rushed to a hospital, where it was revealed he was suffering from a fractured skull.

Maris has been working on the construction force of the A. T. & T. company in Hempstead county for the past several weeks.

President Sends Treaty To Senate

Sen. Robinson Urges U. S. To Build To Point of Treaty

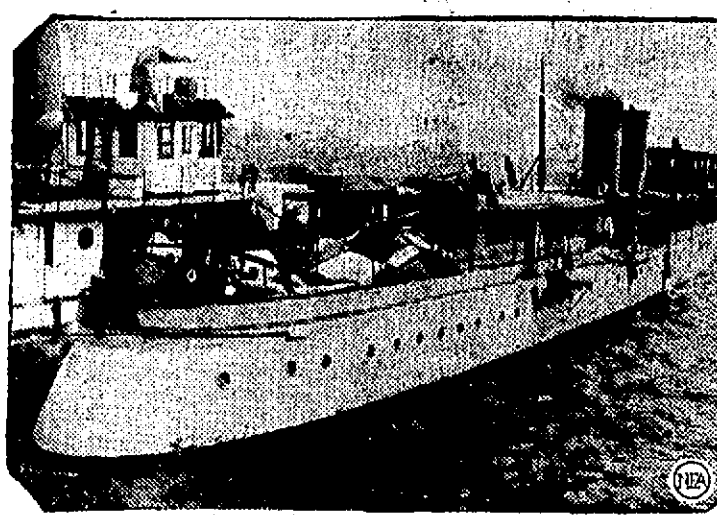

WASHINGTON, May 1.—(AP)—President Hoover sent the London naval treaty of 1930 through the senate at noon today for its ratification. The pact was accompanied by a letter of transmittal. Yesterday president Hoover received the pact from Secretary Stimson, who headed the delegation to London. On Capitol Hill few senators expressed their opinion of the treaty.

Chairman Borah of the foreign relations committee has given the pact his approval. Borah holds a position of great importance in the senate contest over its ratification. His approval of the pact is regarded by those close to the president as a notable preliminary victory.

Senator Robinson, of Arkansas, who was accorded a great ovation by the senate on the occasion of his first appearance in the chamber yesterday after his return from London, in an interview with newspaper men, urged that the United States build its navy to the point permitted by the treaty.

Parker Gains In Senate

Vanderbilt Yacht Damaged by Blast

Rocked from stem to stern and showered with debris by the explosion of a 90-gallon gasoline tank, the steam yacht Winchester, owned by Brig. Gen. Cornelius Vanderbilt, is pictured above at anchor in the East River, New York, after the fireboat had quenched the resultant blaze. The captain of the yacht and a crew of 22, dining forward when the blast occurred aft, escaped injury. The concussion shook buildings on shore.

Kiwanis Record Here Is Broken

Birthday Cake Brings Almost Entire Membership

Kiwanis club attendance records of recent weeks were broken Thursday noon when almost the entire membership gathered to share the birthday cake which Mrs. R. V. Herndon had prepared for the club to present to her husband, "Rufe" Herndon. The cake came as a complete surprise to Mr. Herndon, who had not even recalled that this was his birthday. Mrs. Herndon had baked one of her famous angel food cakes, to be delivered to her husband during the regular weekly luncheon. It was served to the members of the club, who praised it highly, and who sent her their thanks for the treat.

DeAnn Entertained Next
Plans for making a goodwill trip to Patmos were postponed until Thursday, May 22. Frank May, chairman of the committee announced that arrangements had been completed to entertain the citizens in the DeAnn neighborhood on the next goodwill tour, Thursday, May 8. This program will be given at the schoolhouse there, at 7:30 in the evening. Kiwanian Will Atkins, and invited speakers, Roy Anderson and Lynn Smith will each deliver short talks. Entertainment for the occasion will be furnished by W. F. Harman and the Washington quartet. Several other entertainment features are planned.

New Industry Treats
C. W. Wellman presented each member of the club with a generous sample of orange marmalade, which was made by J. Fitzsimmons, who is starting a factory here to make this product. Mr. Fitzsimmons has a new formula for making this marmalade, and he has already started to manufacture it in large quantities. It will be sold in the grocery stores of southwest Arkansas as soon as it can be placed on the market. Each member of the club went on record as endorsing the taste and qualities of the marmalade.

To Push Census
C. W. Wellman and Paul Lewis were appointed to the civic census committee which will work with similar communities from other local organizations to attempt to secure a larger census total within the city limits of Hope.

Perry Moses, Dr. Nabors and Thurman Rhodes were appointed on a committee to confer with similar groups from other civic clubs to investigate the matter of closing Hope stores Thursday afternoons during the summer months to give employees a half holiday.

Cotton Meeting To Be Held Here

Representatives of Federal Farm Board Will Attend

Representatives of the Federal Farm Board, of the Mid South Cotton Cooperative Association, and of the Agricultural Extension Service will attend a cotton meeting in Hope at City Hall, May 17, at 10:00 o'clock A. M., according to an announcement made public today by representatives who attended a similar meeting in Little Rock several weeks ago, and which included C. S. Coffey, Elmer Calhoun, Roy Anderson and County Agent Lynn Smith. This is one of a series of meetings being held over Arkansas and Hope is fortunate in being selected as one of the points for a meeting. Attendance at this meeting will be by INVITATION ONLY; therefore those who expect to attend should get in touch with the county agent and get an invitation card.

How the Federal Farm Board will co-operate with cotton producers will be explained in detail. The working of the Mid South Cotton Growers Association will be explained and plans for membership next year will be outlined.

Every cotton producer, whether you are, or have ever been a member of a cotton association, should plan to attend this exceedingly important meeting.

Assistant County Agent Is Named

Grover C. Kincaid Will Assist Lynn Smith

FAYETTEVILLE, Ark., May 1.—Appointment of Grover C. Kincaid as assistant county agent in Hempstead county was announced by University officials today. The appointment becomes effective June 16.

Mr. Kincaid will be graduated from the University at the end of the present semester. He has acted as assistant in the agronomy department during a part of his University course, and during the summers has worked with Prof. J. O. Ware in his experimental work in cotton breeding.

70 Attend Better Homes Program Given At Blevins

Mrs. A. H. Wade Presides Over Good Program

HOPE PEOPLE GO
Many Speakers Are Heard From Surrounding Area

Seventy persons attended the Better homes program held at Mrs. Ella Stephens' home at Blevins yesterday afternoon.

Mrs. A. H. Wade, president of the Blevins Women's Demonstration club, presided over the program, which was opened with a song, the invocation by Mrs. W. P. Agee, of Hope, and the address of welcome by the chairman. In her greeting, Mrs. Wade said: "We are glad to have you with us this afternoon, and to have you help to make better homes in our county. We know that it takes a heap of loving to make a home, and today we are only taking up three phases of the home, the living room, library and the food of the family."

Miss Martha Jane Bume demonstration agent, told the group that a living room should be planned from the viewpoint of good lighting, heating and furnishings. The furniture should be comfortable, tasteful and adequate. The library, she said, should include pictures and accessories calculated to give an harmonious effect in the general appearance of the room to the visitor. Most of all, a living room should be suitable to the needs of the particular family, she said.

Mrs. Jim Henry, of Hope, made a talk on the library; and Miss Ruby

(Continued on page eight)

Minor Clashes By May Day Observers

Day Spent Peacefully In Most Cities In The World

(By Associated Press)
Early May day was held peacefully in most cities throughout the world, although minor clashes occurred. In Paris police suppressed three demonstrations, one in the city and two in suburbs, and arrested 320 persons. Thirty thousand workmen were on strikes and no taxi cabs were operating.

Some fights occurred at St. Denis where policemen clashed with seven Communist counselors and forty of their followers. May Day dawned in Berlin with no early signs of disorder. Parades and speeches were heard and seen in some parts of the city. Eighty thousand persons assembled at one place, but were quiet and orderly.

Police in Sidney, New South Wales, broke up a small May Day celebration with 17 arrests. Moscow celebrated May Day with great processions of workmen, housewives, soldiers, pioneers and civilians taking part in demonstrations.

Two policemen were severely injured in a May Day riot near Tokyo, Japan.

Wilson and White Take Over Cafe On Front Street

Raymond Wilson and Cecil White, well known in Hope, today took over the management of the American cafe located on Front street. For the past several months the cafe has been leased and under the management of Miss Eula West. Raymond Wilson was formerly manager and owner prior to the time when Miss West assumed duties of the cafe.

LaFollette Kin in Congress Race

There will be two "Young Robes" in Congress if Robert H. LaFollette, above, of Albuquerque, wins the race for representative from New Mexico. He seeks the Democratic nomination. He is a cousin of Senator Robert M. LaFollette, Jr., of Wisconsin, his mother having been a cousin of the late Senator LaFollette, Sr.

Pearman's Grip Is Found In River

Virtually Establishes Fact That Pearman Was Slain In Mo.

LINN, Mo., May 1.—(AP)—County authorities announced today that they had found the handbag of William R. Pearman who was slain in a \$200,000 life insurance swindle plot, approximately where Casper Tillman, held in connection with the slaying, said he threw it into the Gasconade river near Fraeburg as he and Dr. A. J. Bass were taking the body of Pearman to Gravette, Ark.

Authorities said the finding of the bag virtually established the fact that Pearman was slain in Missouri and not in Arkansas, where Dr. Bass, a Columbia, Mo., dentist is being held in jail.

The discovery of the handbag corroborates the statements made by Tillman and Bass in which they related that Pearman was killed in Missouri and that they had disposed of Pearman's handbag which contained clothing and other articles on their drive to Arkansas to get rid of the body of their victim.

Brought to Speak At Washington

Hope Represented for Dedication This Afternoon

Former Governor Charles Hillman Brough arrived in the city at noon today to make the principal address at the laying of the cornerstone for the restored Civil War cemetery of Arkansas, scheduled to be held at 2 o'clock this afternoon at Washington. Dr. Brough was met at the train by Steve Carrigan, who will make the speech of introduction at Washington this afternoon. The former governor, Mr. Carrigan and Hope's representatives in the last legislature, Curtis Cannon and C. D. McLarey, of the house, and U. A. Gentry, of the senate and Alex. H. Washburn, publisher of The Star, were to drive to Washington for noon luncheon, and the dedication this afternoon.

The dedicatory service will be in charge of the grand lodge of Arkansas Masonry.

Big Proportion of Uncertain Ballots Held by Democrats

Indication How They Will Be Cast Depends Upon Robinson

PROTEST BROUGHT
Doubtful Group Will Confirm or Reject Appointment

WASHINGTON, May 1.—(AP)—Friends of Judge John J. Parker, of North Carolina, claimed to have gained in the senate republican ranks for his confirmation as an associated justice to the supreme court, but it is doubtful if he will continue to gain until the time comes when the final vote is taken.

Vigorous protests have been made against Parker by labor and negro organizations, and which caused the nomination membership to split into two equal factions. Leaders of these two bodies look upon a small group of doubtful votes to either confirm or reject the appointment of Parker.

A large proportion of these uncertain ballots are held by democrats and indication of how they will be cast depends upon the position Senator Robinson, of Arkansas, the democratic leader, stands on the confirmation of Judge Parker.

Brown is Freed By Camden Jury

Former Bank President Found Not Guilty

CAMDEN, May 1.—W. W. Brown, former president of the now defunct Ouachita Valley bank, tried in circuit court here on a charge of subscribing to a false statement as to the bank's condition, was acquitted by a jury at about 2:20 Wednesday afternoon. The jury was out but 13 minutes.

Trial of the case began Monday. Other charges in connection with the bank's failure still stand against Brown. It was not known whether he would be tried on these.

W. T. Reynolds, certified public accountant, witness for the defense, was the final witness this morning. He testified that a \$10,000 note of the Bear State Handle company, alleged by the state to have been made after the company had been dissolved, was a renewal of an old note by the maker.

A brief recess followed the defense's close, and arguments then were opened by Prosecuting Attorney Joe Joiner. He was followed by defense attorneys and Joe Mahoney, assistant to the prosecution, closed for the state. The trial was attended by crowds of citizens.

The state rested its case at 4 o'clock Tuesday afternoon after placing 15 witnesses on the stand.

Campaign Expenses Of Mrs. McCormick Revealed Today

WASHINGTON, May 1.—(AP)—Mrs. Ruth Hanna McCormick, successful candidate in the recent Illinois republican senatorial race, told the senate campaign fund committee today that she had spent \$252,572 from her own pocketbook in the race. The republican nominee, first witness before the campaign committee, said she received no money for her campaign from anyone except members of her own family, and added that she was supported by two organizations in Cook county, the voters of the progressive club and the Ruth Hanna McCormick volunteers.

She's Candidate For Congress

Mrs. Robert Quincy Lee, above, of Cisco, Texas, widow of the late congressman from the seventeenth Texas district, is a candidate to succeed him. She is opposed by former Congressman Thomas L. Blanton, of Abilene.

Jailed after An Attempt To Kill

Edgar Gray Attempts To Shoot Ex-Wife and Neighbor

JONESBORO, May 1.—(AP)—Edgar Gray, age 27, farmer of Gilkerson was in jail today with charges against him of assault with intent to kill after his unsuccessful attempt late yesterday to shoot his estranged wife and a neighbor James Merrill. Officers said that Gray, apparently in a rage, fired a shotgun at his wife who's life was saved by the prompt action of her mother who rushed in and knocked upward the barrel of the gun and directed the charge into the ceiling.

Gray went to the home of Merrill where a small post between Gray and Merrill this time saved the life of his other intended victim. A full charge of the shot took effect in the post except for three shots which lodged in Merrill's head, neck and shoulders. Officers said Merrill had made no explanation of the cause of shooting.

Rains Help Crops In Southwest Area

Delay In Planting Has Caused Stringency In Cotton Hopes

KANSAS CITY, Mo., May 1.—Rains which have soaked the Southwest and ended a severe drought in a measure have revived hopes for the 1930 harvest, according to a survey completed Wednesday. The crop condition, however, remains uncertain in spots, much depending on later rains, and some sections were still not over optimistic. Good growing weather, it was believed, would increase estimates.

Delay in planting, due to the dry weather, has caused a stringency in Texas' cotton outlook, but the wheat prospects there are excellent. Although boosted by the rains, estimates placed at least one-fourth of Oklahoma's wheat past recovery. Kansas 10 days ago, but there was still no observers were more optimistic than certainty, and many believed the rains were too late.

Six thousand combines will harvest the Texas Panhandle's 2,500,000 acres of wheat, which are expected to produce between 50 and 55 million bushels. Although recent rains will help the growth, cotton prospects are still unsatisfactory for dry soil delayed planting operations to a point of grave concern.

In Oklahoma, between 25 and 30 percent of the wheat has been ruined by the drought. Many farmers were reported planning to plow their wheat fields and sow cotton.

Italy Approves Naval Building

ROME, May 1.—(AP)—The council of ministers decided Wednesday to lay down one 10,000-ton cruiser, two 5,100-ton scout cruisers, four 1,240-ton destroyers, and 22 submarines in 1930.

Leads Territory From Texarkana To Little Rock

Malvern Only Other City To Show Big Increase

CHECKUP BEGUN
Last-Minute Corrections Due In Next 10 Days

The complete preliminary count on the City of Hope for the 1930 federal census shows 5,925, according to the summary of reports received today by The Star from J. Warren Stevens, supervisor of census, at Texarkana. The preliminary count was completed some time ago except for Ward One—the largest in the city. Today, Mr. Stevens reported the total in this ward as 2,311. The complete count by wards follows:

Ward One 2,311
Ward Two 1,444
Ward Three 639
Ward Four 1,491

Checkup Begins
The next 10 days or so will be spent by the Texarkana district office in checking all returns and holding public hearings where asked by cities dissatisfied with their census figure. All business houses and heads of households in Hope have been asked to check their members carefully to make sure that all have been included in the 1930 census. Persons believed to have been omitted should be reported to the Chamber of Commerce, which will forward this additional information to Mr. Stevens.

The tentative total population of the city shows an increase of 23.7 per cent over the 1920 population which was 4,790. This compares favorably with the best increases shown elsewhere in Arkansas, except for extraordinary developments in the oil fields. Texarkana, including both the Texas and Arkansas cities, showed a total of 27,328, an increase of 38.4 per cent. The resort city of Hot Springs showed 20,115, a gain of 72 per cent. Camden, in the oil fields, produced a total of 7,258, or a gain of 225 per cent since 1920; and Malvern, which only recently obtained the new plant of the International Shoe company, has a 1930 population of 5,115, a gain of more than 200 per cent.

A Substantial Gain
The shoe company's plant brought Malvern up close to Hope, but still left this city the largest on the Broadway of America between Texarkana and Little Rock. Prescott, with a 1930 population of 3,019, showed an increase of only 328 persons, against Hope's gain of 1,135. Arkadelphia's new census figure is 3,374, an increase of only 63.

In his report today, Mr. Stevens showed Stamps, a southern neighbor of Hope, to have a population of 2,705, a gain of 141 since the last federal census.

Other reports forwarded here by Mr. Stevens include a complete preliminary count on Wallaceburg township, Hempstead county, giving this section a population of 1,597. This area was not shown separately in 1920. The new census included 338 farms.

Owing to the delay in making contemplated annexations of territory belonging to the actual residential sections of the city, Hope shows probably 500 lower than the real municipal population. Since 1920 the only annexation project was that of Oaklawn subdivision, which included at that time about 900 persons. Today there are sizable communities of homes just outside the corporation line on South Main and East Third streets.

Magnolia Students In Festival Today

A. and M. Collegians To Feature Legend In Annual Event

MAGNOLIA, May 1.—Magnolia A. & M. College students will hold their annual May Day festival at Smith field here at 5:30 p. m. Thursday.

The event, which is presented by the students on May 1, of each year, is being sponsored by the physical education department of the institution, under the direction of Miss Effie Davis. She will be assisted by Miss Maud Crumpler, Miss Minnie Hawkins, Miss Jewell Stevens, and members of the Little Theatre, Glee Club and orchestra.

"Flying Governor" Under Fire

Here are three closeups of Governor Walter J. Kohler of Wisconsin, who faces an impeachment trial at Sheboygan on charges of excessive campaign expenditures, made by Progressive leaders. Kohler, a millionaire manufacturer, owns a private plane in which he makes frequent trips over the state and is an ardent outdoor sportsman.

Some Glass Stops Light; Better Windows On Way

PROF. H. H. HIGBIE

ANN ARBOR, Mich., April 30.—(P)—Some of the clearest vision window glass cuts down to an unbelievable degree the daylight entering the window.

This is found in a study of obtain-

ing more daylight with better windows and shades by Prof. H. H. Higbie, of the electrical engineering department at the University of Michigan.

One of the most transparent glasses lowered the minimum illumination at the rear of a test room by 42 per cent. "This result is hardly expectable in the degree found," says Prof. Higbie, "and probably is due to a considerable reflection back outdoors of the light striking this glass at very sharp angles."

He found that glass with one side smooth and the other rough gives 10 to 100 per cent better illumination when the smooth side faces outdoors than when it faces in doors. He says this disagrees with hitherto published findings.

"It has long been known," says Prof. Higbie, "that excess of illumination close to the window is due mostly to light coming through the lower part of the window, and that the upper part affects the illumination at the rear of the room farthest from the windows."

"Such slaves to convention we are that for the sake of uniformity we thoughtlessly destroy most of the value of the windows for which we pay dearly, by covering the most important parts of them with light-absorbing hangings."

"It is entirely reasonable to expect that as a result of scientific investigation a window shade fabric may be so woven or treated or used that all the desired objects shall be accomplished."

'Vagabond King' at Saenger May 7-9

Famous Musical Show Coming Here Next Week

"The Vagabond King," Paramount's lavishly produced, enchanting adaptation of Rudolph Friml's well remembered operetta, will be presented at the Saenger theatre in Hope starting Wednesday. In the leading role of the dauntless vagabond is Dennis King, the famous star of the New York musical stage, who in this screen version, again creates the role in which he originally sky-rocketed to fame. Playing opposite this golden-voiced star is Jeanette MacDonald, the titian-haired beauty, who recently made her debut on the audible screen with Maurice Chevalier in "The Love Parade."

Photographed throughout in beautiful natural colors, this latest Paramount production gives every promise of being one of the most elaborate and costly pictures ever to come from this company's studios. Its action is sweeping, exciting, highly dramatic. Its story throbs with the joys and heartaches of noble love. And its very spirit, aside from the splendid acting of the entire cast, is magnificently interpreted by the lilting, captivating music which the noted composer, Rudolph Friml wrote for "The Vagabond King."

The songs featured in this picture and sung as specialties by Dennis King, Jeanette MacDonald and Lillian Roth, are "Only A Rose," "Some Day," "Huguetta Waltz," "Love Me Tonight" and the famous "Song of the Vagabonds." It starts the imagination to conceive hearing the artist King sing "The Song of the Vagabonds," accompanied not merely by a chorus of 75 or 100 voices as he was accompanied on the legitimate stage but, instead by 200 voices. Yes, think of it, 500 voices, led by King, singing this rousing melody and rollicking song, truly one of the accomplishments that should give further distinction to the remarkable qualities of the audible screen.

Ludwig Berger, the well known German director who made some of those early and notable UFA pictures, di-

Personal Mention

Mrs. Matt Press, will arrive some time this week from an extended stay in Central America, where she has been in charge of a hospital for the Standard Oil Company.

Ernest Wingfield and Jack Frazier made a business trip to Little Rock Thursday.

A. S. Sheffer, manager of Montgomery Ward's store, returned yesterday from a trip to Monroe, La., where he had gone to attend a meeting of store managers of his firm in this section.

Miss Fay Beckwith who is attending school in Siloam Springs, Ark., will visit in Little Rock, Saturday and Sunday. Miss Beckwith will begin her freshman college work in May in Brown's College.

ONLY 6 MORE DAYS

No, this isn't a new car announcement!

Negro Maniac Killed After Slaying 2 Men

COLUMBIA, O., May 1.—(P)—A negro patient at the Columbia State Hospital for the Insane, killed two white patients last night and later was killed himself in a struggle with attendants.

Ambrose Moss 21, admitted to the institution Wednesday, was the killer.

The victims were Sylvester Shannon, 27, of Flushing, and Frank T. Wilson, 53, of Cambridge.

The two white men were struck by a small stand table. Both suffered fractured skulls. Moss' neck was broken when he resisted the attendants.

Moss appeared docile early in the evening and was placed in a room with the other men. Later hospital officials said, he leaped from his bed, seized the table and attacked his room mates, both of whom were admitted during the past.

Just who enumerates the prisons, and how do they make 'em answer us to all details?

Alleged Slayers Are Held To Jury

STUTTGART, May 1.—Jack Worls and Jess Nipson, charged with first degree murder in connection with the killing of Cicero Spence on lower White river April 19, waived examination in Justice I. C. Gibson's court at DeWitt Wednesday and were held without bond to the Grand Jury which meets in July.

Sheriff C. C. McCalister said that feeling in the lower White river district was running high and that he

believed it advisable to keep the men separated. Worls is in jail at DeWitt and Nipson is in jail here.

Worls surrendered to officers at DeWitt on Monday following the slaying, pleading self defense, saying that he shot Spence after the latter drew a gun on him. Mrs. Spence charged that Worls and Nipson threw her husband in the river to drown after Worls seriously wounded him and that the two men attacked her.

Spence was under sentence for killing Jed Wisley near St. Charles several months ago and his wife was tried in connection with the slaying

but was not convicted.

Brick Clay Found Near Arkadelphia

ARKADELPHIA, May 1.—Geologists and brick makers who have been making a survey around Arkadelphia have found what they declare is "an inexhaustible supply of high quality clay for the manufacture of brick." This has led to efforts on the part of the Chamber of Commerce to locate a large brick plant here.

Cadet Fliers Killed When Plane Crashes

SAN ANTONIO, Tex., May 1.—Cadets Raymond M. Rowe and Benjamin Ellsworth, third and fourth students in the army's advanced school at Kelly Field, were killed Wednesday in an airplane crash. The plane was making a local cross-country flight crashed about 10 miles east of Bandera, Tex.

Patterson's DEPARTMENT STORE

Mrs. Lindbergh Is Expected To Become Mother in Few Weeks

NEW YORK, May 1.—The United Press confirmed from a trustworthy source Wednesday reports that a child will be born to Mrs. Charles A. Lindbergh within the next few weeks.

Mrs. Lindbergh has gone into retirement to await the event, expected within six weeks, and her husband, now in Panama, will be back in ample time to be present.

Where Mrs. Lindbergh is staying was not revealed, but there is reason to believe she is at the home of her parents, Ambassador and Mrs. Dwight W. Morrow, in Englewood, N. J.

Rumors of the expected child have recurred the last few months, and one of the reasons for the record flight of Lindbergh and his wife from California to New York was believed to have been their desire to allow ample time for Mrs. Lindbergh to rest near the home of her parents.

Ouachita Corps To Be Inspected

Cadets to Pass Review Today; Officer Also Will Speak

ARKADELPHIA, May 1.—Colonel Thomas S. Moorman, United States infantry, seventh corps area, headquarters at Omaha, arrived here Wednesday for the annual inspection of the reserve officers training corps at Ouachita College.

Thursday afternoon, Colonel Moorman will inspect the senior and junior classes. At 8 a. m. Friday, there will be battalion review followed by an inspection, close order and extended order drill and physical drill in the A. U. Williams athletic field.

Tactical problems will be given the cadets on the field for the student officers to work out. The several companies of the college will vie for accuracy in tactics and execution of movements.

At 10 a. m. Friday, as per custom, Colonel Moorman will address the students and faculty at chapel exercises. The remainder of the day will be devoted to an inspection of the sophomore and freshmen cadets. The R. O. T. C. band will also be inspected and it will play for the review.

Captain Warfield M. Lewis is professor of military science and tactics at Ouachita; Captain Frank G. Potts, A. P. M. C. and T., and Sergeant John Maurel completes the corps of instructors at the school.

Colonel Moorman will be a guest of Captain and Mrs. Potts during his stay in Arkadelphia. Thursday night, President and Mrs. Johnson will entertain him at dinner. He will leave here Saturday for Fayetteville, where he will inspect the corps at the University of Arkansas.

Says Robinson Was Outstanding Envoy In Naval Parley

Frederick William Wile, noted political writer, in an article in the Washington Star, declares that Senator Robinson of Arkansas has emerged from the London Naval Conference as the outstanding American delegate and that the Arkansas will be the "towering Democrat presidential timber in 1932."

Senator Robinson was known as "the man with the veto" at the London conference, Mr. Wile said. The Arkansas Senator, he said, really controlled the conference. Excerpts from Mr. Wile's article follow:

"If the country likes the three-power naval treaty as much as President Hoover thinks it ought to, Senator Joe T. Robinson of Arkansas should be able to capitalize his share of the glory in 1932. When the long, long London trail becomes history, the part the Democratic Senate leader had in making it will redound effectively to his credit. No one member of the American delegation wielded greater personal influence at the conference than the Arkansas."

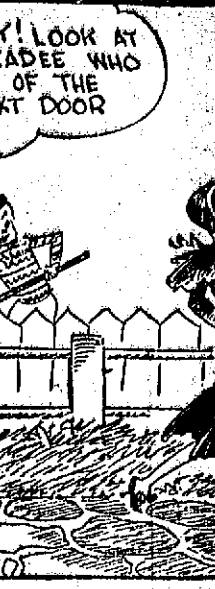

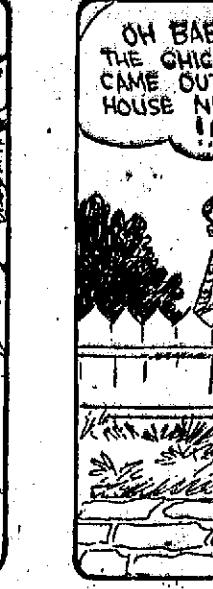

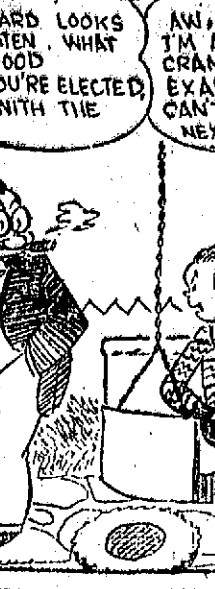

"Known as 'the man with the veto'—the head of the senate minority with more than votes enough to smash an objectionable pact—Robinson's position in London was unique and always highly respected. Invariably his authority was on the side of action as against delay. He contended consistently for a more liberal treatment of the American newspaper men at the conference."

London Naval Past Signed—U. S. Delegates Return

Home again, after arduous months of treaty-making, America's delegates to the London naval conference are shown here on the bridge of the New York city tug Macon as they were brought up the bay to receive the welcome of the metropolis. Right to left are Secretary of the Navy Charles Francis Adams, Secretary of State Henry L. Stimson, Police Commissioner Grover Whalen, who headed the mayor's welcoming committee, Senator Joseph T. Robinson and Ambassador Dwight W. Morrow.

Texas Girl Artist Whose Paintings Won Fame In Paris Salons Is Now Railroad President

Marie Cronin Operates Unique Line Inherited From Her Father

TEMPLE, Tex., April 30.—Probably no woman in America has any more unusual claim to distinction than Miss Marie Cronin.

To begin with, she is an artist, whose paintings have won honors in Paris salons.

Then—as if that were not enough—she is also president of a railroad.

A two-story frame building on a muddy street in the little Texas town of Bartlett, houses her activities in

both fields.

On the first floor are the general offices of the Bartlett Western Railroad—her railroad. There, as president of the line, she conducts her business.

Upstairs in an art workshop. There hang the paintings she brought back from Paris—paintings that were given space on the walls of the Paris Salon of the Societe Nationale des Beaux Arts. Every day she slips up there to point, letting the railroad be forgotten for a time.

The railroad is 25 miles long, stretching across the blackland cotton belt of central Texas from Bartlett to Florence. Its equipment consists of five motor cars, two of which have locomotive attachments, 37 flat cars and 10 box cars. It used to run steam engines, but the cheaper gasoline motor cars replaced them several years ago.

Hauls Cotton for Planters

Representing a capital investment of \$600,000, the road keeps busy and turns in revenues of \$25,000 to \$30,000 a year. It hauls out cotton for the planters in its vicinity, and brings in bulk freight such as crushed brick, cottonseed, lumber, coal and calcium.

herself that she had talent, and when she got there she threw herself into her work with enthusiasm.

For five years she worked and studied. Four of her paintings found their way into the Societe Nationale's exhibit. They were "Lotus Blossoms," "Lady in Gray," "Andalusia," and "The Spanish Dancer"—all portraits of women, rich in color and expression.

Miss Cronin herself sat for a portrait by Claudio Castelucio, celebrated European artist. He exhibited the portrait in London, Berlin and Vienna and finally gave it to Miss Cronin's father.

Then, in 1926, Miss Cronin's father died. Miss Cronin found that she had inherited the railroad. There seemed to be nothing for her to do but come back to Texas and run it.

Come back she did. She moved into the general offices, along with her brother-in-law, W. M. Brangan, who is vice president and general manager. With an auditor, they make up the road's official staff.

The Bartlett Western is a colorful little railroad. Four of its stations,

for instance, are named respectively St. Matthew, St. Mark, St. Luke and St. John—named thus by Miss Cronin's sister. In each station hang prints of the gospel stories. The other stations bear more prosaic names, such as Jarrell, Schertner and Florence. They're mostly freight stations now, as the road doesn't pretend to do much passenger business. Still, when muddy weather comes and the autos can't negotiate the black Texas roads, the road carries a good many passengers.

Paints After Day's Business

A number of people have tried to buy the Bartlett Western, as it is. In its own way, a money-maker, Miss Cronin and Brangan have refused to sell, however. They believe, that eventually it will be made a part of some great system. When that day comes, Miss Cronin plans to sell out and go back to Paris, to resume her study of painting. Until then, however, she is willing to stay on the job, running the railroad and slipping upstairs, ever so often, to slip on a smock and paint some more.

Meanwhile, just to keep busy, she is studying law, so that she can handle her railroad business better. Soon, she thinks, she will polish off her law studies with a six-months' course at the University of Texas.

She also is encouraged by the fact that a large corporation has bought certain calcium deposits at Florence and is preparing to operate a grinding mill there. That will mean shipments over her railroad at the rate of eight or 10 cars a day—with, of course, an added revenue.

So Paris seems a long way off.

Young Flyer Spends Night on Desert; Was Forced to Land

EL PASO, May 1.—(P)—Frank Goldberg, 19-year-old transcontinental flyer arrived in El Paso this morning at 6:30 a. m. mountain standard time. The flyer said he was forced down on account of darkness last night on a desert 100-miles east of here after leaving Midland, Texas.

When taking off from the desert today he told of striking a telephone pole and damaging a wing of his plane, but this did not prevent him from continuing the trip here. The ship is being repaired at an El Paso airport and he left at noon today for Tucson, Ariz.

Lindbergh Enroute Back to U. S. A.

PONTA CABEZES, May 1.—(P)—Col. Charles A. Lindbergh set his inaugural 7-day Boneus Aires-New York airplane down on a landing field here today to complete the trip from Cristobal at 12 noon (E. S. T.). He left Cristobal at 7:58 a. m. (E. S. T.), flying the 395 miles in four hours and two minutes.

Col. Lindbergh will remain at Ponta Cabezes, between Miami and Cristobal tonight and will depart tomorrow for Cuba and Miami on his flight back to New York.

Unofficial Glider Flight Record Set

YOUTH STAYS IN AIR 15 Hours and 13 Minutes

SAN DIEGO, Cal., May 1.—(P)—ure to provide himself with a barograph Wednesday robbed Jack Barstow, 24, of a new official world's record for sustained flight in a glider after he had soared over Point Loma for 15 hours and 13 minutes in a motorgless, sail plane, exceeding all previous glider endurance marks.

Barstow's remarkable performance will stand only as an unofficial record because of rules requiring that a barograph be installed in aircraft in order to gain official acceptance of new records.

Unofficial Glider Flight Record Set

YOUTH STAYS IN AIR 15 Hours and 13 Minutes

SAN DIEGO, Cal., May 1.—(P)—ure to provide himself with a barograph Wednesday robbed Jack Barstow, 24, of a new official world's record for sustained flight in a glider after he had soared over Point Loma for 15 hours and 13 minutes in a motorgless, sail plane, exceeding all previous glider endurance marks.

Barstow's remarkable performance will stand only as an unofficial record because of rules requiring that a barograph be installed in aircraft in order to gain official acceptance of new records.

The young glider expert announced, however, that if wind conditions are favorable he plans to take the air again soon, this time with a barograph.

Barstow took off at 12:44 p. m. (P. S. T.) yesterday in a new Bowles sail plane of 60 foot spread. He landed at 3:57 a. m. (P. S. T.) Wednesday setting his powerless craft down within 500 meters of his point of take-off. The official American record is 9 hours, 5 minutes, 32 2-5 seconds, established in March this year over Point Loma by Hawley Bowlus of San Diego.

Arkansas Negro In Ohio Prison

PINE BLUFF LIFE TERM—er At Institution Asks Aid

PINE BLUFF, May 1.—Pine Bluff has at least one representative in the Columbia state prison, scene of the recent outbreak among the prisoners.

He is Lawrence Mitchell, negro, who was born here and resided here during the early years of his life. Lawrence is a life-terminer. Why he is there or when he was sent there is not known, but Judge W. B. Sorrells received a letter from him this week.

The negro tersely states that he is anxious that the judge do something to help him, and urges him to notify relatives of his plight.

Mitchell is the son of Wesley Mitchell, for many years a familiar figure on the streets of Pine Bluff. His forbears were slaves of the late Jack Marks, for many years a power in the political and business life of Cleveland county. Some of Mitchell's relatives now reside at Risón.

Girl Chained for 17 Years In Cellar

VLADIMIR, U. S. R. R., April 30.—For 17 years Peter Semionov, once among the wealthiest men in this district, had kept his daughter chained in a damp cellar.

This tragedy was discovered recently by the police in the town Gorofovez, where the Semionovs lived. But the father and mother were tried by the local court for their crime and expelled from this district, their property being confiscated. The daughter now 44 years old, was transferred to a sanatorium.

At the age of 27, it appeared the daughter, Claudia, developed a mental disorder. Ashamed of that, the parents put her on a chain and kept her confined for 17 years.

Possible Cure For "Paralysis" Victims Found

KANSAS CITY, May 1.—(P)—Treatment for metallic poisoning, which already has proven effective in four cases here, was hailed as a possible cure for "jake paralysis," strange malady suffered by hundreds of persons after using Jamaica ginger as a beverage.

Dr. D. M. Powell, an interne in the General hospital said four patients had benefited from treatment with sodium thiosulphate. The remedy was used in the belief that the paralysis was caused by the presence of metals in the Jamaica ginger.

Since treatment with sodium thiosulphate, one patient has regained the use of his limbs and three others were much improved, Dr. Powell said.

Physicians, who today were expected to announce results of tests of Jamaica ginger samples, said they believed improper distillation of alcohol for the extract was the direct cause of the disease reported in numerous sections of the country, but more prevalent in the Southwest.

Mena Waterworks Contract Awarded

MENA, May 1.—Fourteen contractors from Louisiana, Texas, Missouri, Nebraska, Oklahoma, and Arkansas Wednesday submitted bids for improvements planned for the municipal water works. The Board of Public Affairs and waterworks commissioners, acting jointly, awarded three contracts as follows: Chicago Bridge and Iron Works, Dallas, Tex., steel storage tank, \$5,400; Sherman Machine and Iron company, Oklahoma City,

laying water mains; and H. H. H. pipe and fire hydrants, \$20,388. O. W. and Ellis, El Dorado, drilling wells, \$5,225. Work is to be completed by June 15.

The Policy At Mayo's

A FINE viewpoint on life is contained in a recent statement issued by Dr. W. J. Mayo, one of the world-famous Minnesota surgeons, while on a visit in New Orleans. In the course of the interview, Dr. Mayo explained the plans of his brother and himself to continue the work they have started at Rochester through the establishment of the Mayo Foundation for Medical Education and Research. The two Mayos at present are taking as salaries less than half of the incomes which they earn. The remainder, an amount which will be materially in excess of \$13,000,000, will be set aside as a fund dedicated to humanity's service through the foundation.

Commenting on the foundation, Dr. Mayo in his New Orleans interview, in part, said:

"The very roof of my home gets out of the possession of my family when I die. It is already turned over to the foundation. I wouldn't want my children deprived of the fun and benefit of wanting something and going out and fighting to get it. And I think from the rich men with whom I have talked that this idea has penetrated far more deeply into American life than many imagine."

Dr. Mayo's explanation of the manner in which they charge for their services, which is generally known throughout the country, is very interesting:

"When money began to come in and pile up so fast it frightened us, we had to meet the problem of the fixing of charges and use of income. The thought of reducing fees generally had to be dismissed. We could not pauperize our own profession. There are thousands of physicians and surgeons who need the income from what are becoming accepted standard fees."

"But we could do something that we did. We scaled the fee in accordance with the patient's means. And we gave the same treatment to the man without a cent that we gave to the millionaire. A man's financial standing has nothing to do with the treatment he gets from us. But if he has everything to do with what we charge him."

"I never charge a man a fee that, knowing his financial condition, I know he cannot meet inside one year, while meeting all his other normal conditions. When a man leaves he is handed his bill. If he can pay then, he pays. If he cannot, he goes his way without further explanation. I never took a man's note in my life. I never will. I never sued a man for a bill in my life. I never will. If a man can pay, he will. I ceased entertaining any other assumption long ago. The variations from fundamental decency and honor are to rare to be taken into calculation."—Morrilton Democrat.

The Power Of Gossip

AN Illinois clergyman has been on trial recently for shooting two members of his parish; and his trial brings out, once more, the terrific amount of damage that village gossip—which, by the way, is not always confined to the small town—can cause.

This minister had written a letter to a woman in his congregation; a letter which, by its wording, seemed to be rather indiscreet. This letter, in some way, came into the hands of the church sexton and his wife. They, according to the minister, began to show it to other members of the congregation.

So the minister went to see them to get the letter away from them. There was an argument, and when it ended the minister had shot both people—fortunately, not fatally. This is the whole story—a tawdry, miserable affair, any way you look at it.

Back of it, of course, there stands the unclean specter of village gossip; that insidious, deadly force that can wreck a man's or a woman's life forever, a force that can not be combated or repelled to—a force, in fact, that can drive a man to the point where it seems that nothing but a revolver shot will solve things.

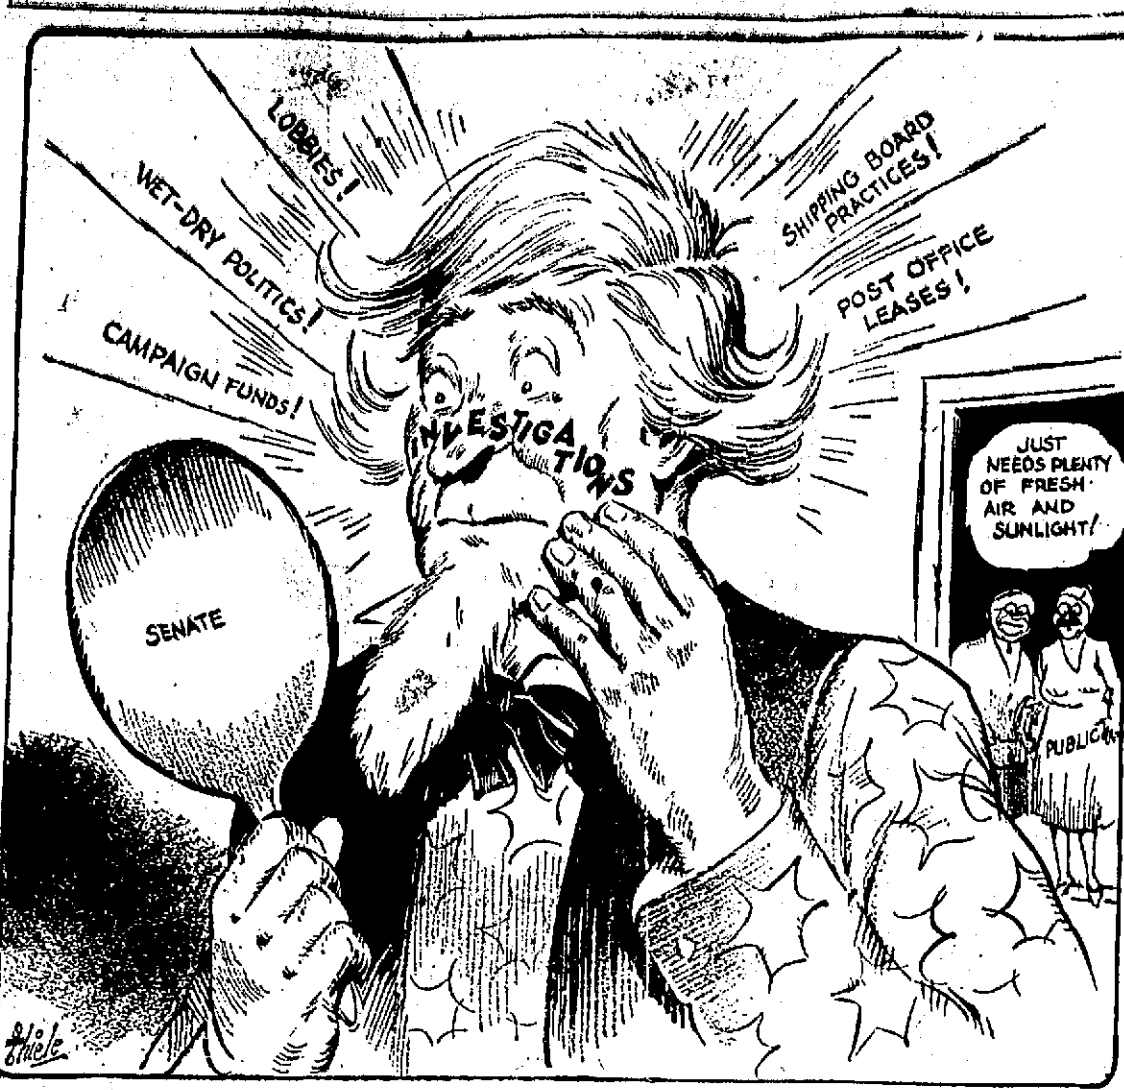

It is easy enough, in a matter that doesn't directly concern us, to condemn gossip and the gossippers. But there are mighty few of us, in big city or country town, who are not guilty of it at one time or another.

Sometimes it seems harmless enough. Surely it is normal for a husband and wife to exchange opinions about the antics of the lady next door, or the gallivantings of the family on the next street. And, likewise, it hardly seems a crime for a woman to carry the same discussion to her bridge club, or for a man to talk it over with his cronies around the lunch table. Each step in the process looks insignificant.

But that is what the most virulent, soul-destroying gossip is—a collection of unimportant little confidences and idle remarks. Often it does no harm; but sometimes—as in this Illinois case—it brings several lives to shipwreck.

The only safe way is not to indulge in idle talk about our neighbors at all. If we all could follow that rule a good many heartaches would be avoided.

Spring Rash!

Daily WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON—Four main proposals are heard as those most interested seek for methods to meet periods of severe unemployment. None of them is new but all have received increased attention as a result of the employment slump of the last few months. They are:

1. Expansion of the fact-finding agencies in the Department of Labor so that a continual, accurate check may be kept on the amount of unemployment.
2. The timing of public construction work in accordance with the employment situation.
3. A national system of state aid employment offices co-ordinated and partly supported by the federal government.
4. Extension of the five-day working week and the six-hour day.

What Wagner Proposes:

The first three proposals were voiced in bills introduced in the Senate by Senator Robert F. Wagner of New York. The first two were given preferred position on the Senate calendar. Consideration of the third was blocked by Senator E. A. Tamm of Connecticut, who has close relations with manufacturers. This measure also, had strenuous opposition from the National Association of Manufacturers.

The five-day week and six-hour day are urged with increasing vehemence by leaders of organized labor faced with increasing technological unemployment, recurrent industrial depressions and the practice of laying off workers at low age limits.

Many workers already have the normal five-day week. The National Industrial Conference Board recently located 270 manufacturing

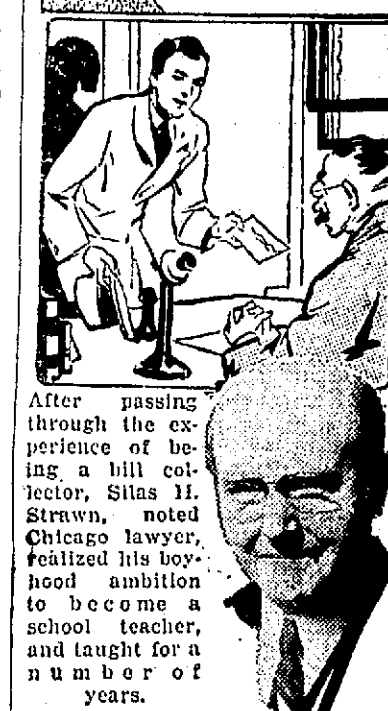

establishments which had adopted it, including Henry Ford's plants. Many building trades workers have a regular five-day week and the practice is increasing, though slowly.

The Conference Board—an employers' organization—reported that its evidence "removes the five-day week from the status of a radical or impracticable administrative experiment and places it among the plans which have demonstrated both practicability and usefulness under certain given circumstances."

The six-hour day is finding more and more favor among labor leaders. Secretary Frank Morrison of the American Federation of Labor says that if the world's work can be done in 30 or 35 hours a week then industry must come to the 30-hour or the 35-hour week in order to avoid "catastrophic unemployment." President A. F. Whitney of the International Brotherhood of Trainmen says we must have the six-hour day or get ready to continual doles and bread lines. He points out that more than 50 industries now operate with the six-hour day.

The Wagner bill to set up a national system of employment offices would provide an initial appropriation of \$4,000,000. The supervising bureau here would co-ordinate the work of the offices by furnishing, and publishing information as to opportunities for employment in various sections, maintaining a system for clearing labor between the several states and "aiding in the transportation of workers to such places as may be necessary." The federal government and the states would contribute equal amounts for maintaining the offices, except in states refusing to co-operate, where the bureau would be authorized to operate its own agencies.

HOLLY SPRINGS

Health of this community is not so good at present. The mumps are raging. There are quite a few having a sweet time now and more to join the band soon.

I notice that cotton is coming up but a good rain would be greatly appreciated.

Jim Franks and Onie White were carried to the Cora Donnell hospital at Prescott Monday. We are hoping they will soon be restored to normal health again.

Mrs. A. F. Marlar is improving slowly.

Mr. and Mrs. Sam Yates of Bleivins spent the week end with Mrs. Yates' parents, Mr. and Mrs. Jim Franks. Mr. and Mrs. Franklin Gray of El Dorado spent Saturday night with Mrs. Gray's parents, Mr. and Mrs. E. Thompson, and attended the singing at Bethel Sunday.

Miss Bennie Thompson returned home Saturday night after a two weeks stay with her sister, Mrs. Gay of El Dorado.

Several from this community attended the singing at Bethel Sunday and reported a good time.

Some few are planning to attend the semi-annual singing convention at Rosston next Sunday.

We are planning a big singing at Holly Springs next second Sunday afternoon. If you read this consider you have a special invitation to come.

Powerful Drama Provides Great Role For Dick

The very latest Richard Barthelmess picture, "Son of the Gods," a First National production on a scale so lavish and artistic that it is a delight to the eye, opened last night at the Saenger Theatre.

You must see it. That is the first comment that occurs to this critic. You simply can't afford to miss it if you care anything for the best in motion pictures. For Richard Barthelmess has never had a finer role; he has never been presented in a more appealing and human story, and he has never been supported by a more splendid cast.

Constance Bennett has the heroine's role. Others among the players who stand out in one's memory are Mildred Van Dorn, Anders Randolph, E. Allen Warren, Geneva Mitchell, Claude King and a Chinese named King Hou Chang who does simply wonderful work in his part. But the whole cast would have to be named in order to do full justice, for each and every role is played with intelligence and skilled capacity.

Kiddies Club

Well, here it is, only two more days until the Kiddies Club meets again, and all the folks down here at the theatre have been working to make this a big Saturday for the club.

It took us quite a while to figure out how we could give out the ice cream, so that you could enjoy it and

you can't tell that to is the traffic cop.

President Hoover has had installed a library in the White House and already jealous politicians see an effort to put one over on the library of Congress.

A man in Massachusetts who allowed his glass eye to fall out later found a street urchin using it in a game of marbles. Surely the boy had an eye for business.

still not get your clothes all messy. So we decided to give out lollipops! And what we're worrying about now is that we won't have enough kiddies to use up the lollipops, because we've got hundreds of them, and we don't want any of them left over. So bring all your friends who belong to the club. Let's have everyone who belongs, here.

And, don't forget the big May pole dance on the stage we're going to have lots of fun, and we want everyone to be here to enjoy it with us.

And by the way, Vernon Simpson has a birthday on April 30. All right Vernon, we'll have a nice birthday present for you.

Forty-four states and 15 foreign countries are represented in the University of Virginia student body.

Only 1,000 Confederate veterans are left on the Tennessee pension rolls. The list includes 75 negroes.

February sales of burley tobacco in Kentucky totalled 42,434,791 pounds.

Most Nurses Use New Face Powder

MELLO-GLO, the new wonderful French Process Face Powder, is preferred by nurses because of its purity, and they say it does not make the skin dry and drawn. Stays on longer, keeps shine away, and is very beneficial to the complexion. You will love MELLO-GLO Face Powder. Geo. W. Ransom Dept. Store and John B. Cox Drug Co. Adv.

Mrs. J. F. Giles, of Springhill, La., arrived yesterday for a visit to Mrs. John S. Gibson.

Mrs. P. N. Garner, of Idabel, Okla., is visiting in the home of her parents, Mr. and Mrs. S. S. Moses.

Mrs. W. C. Green and Mrs. H. C. Pride, of Horatio, were guests of Mrs. John Greene during the conference.

The Mexican army soon will be equipped with all Mexican made armament. American, European and Japanese arms now in use, will be used as reserve supplies.

Iowa Farmer Builds Own Televisor

Lawrence Becker, farmer of Norway, Iowa, and his home-made television set that brings in signals from Washington.

NORWAY, Iowa, April 30.—(AP)—Lawrence Becker sits by his farm fireside and sees movies in Washington, D. C., 1500 miles away. He does it with a television receiver he made himself.

Becker has had his apparatus crude but serviceable, functioning since January 6. Each evening he tunes in W3XX, the short wave television transmitter of the Jenkins laboratories in Washington, and watches intently the experimental broadcasts of special moving picture films.

Although static causes snow storms to appear in the televisor on occasions, Becker reports that the pictures he receives are unusually clear. The images are small, and only a few persons can see them at a time by crowding around the viewing lens which is a reading glass.

Despite the handicaps of reception, there generally is a crowd at Becker's home each night from 7 to 9 o'clock when the broadcasts are under way.

Becker experimented a year before his apparatus worked satisfactorily.

Hooks and Slides by William Braucher

Thinking Out Loud
MULE HAAS played in left center for Babe Ruth the other day, which is against the union rules, but that happens to be just what Babe smacked one that would have been a homer if Mule hadn't been playing there. Center fielders are supposed to play deep right center for the Buster. One day for Mule. . . Ben Chapman, the new third baseman for the Yankees, got some chances to look over fast ball pitching when he faced Vance of the Dodgers one day recently and in the opening American League game faced Lefty Grove. Ben says that Parmelee, who was in the Association last year and is with the Giants this year, can throw one as fast as old Dan or Grove. Can this be true? Leo Diegel, the Agua Caliente pro, who puts like your Aunt Martha, announces that he is out after five major and two sectional championships this year, including an officially recognized match for the world's professional title, to be played in England against the British title-holder, Abe Mitchell. Well, well.

American League Again
HENRY EDWARDS, the man employed to keep the American League's name in the papers, did not tell me this, but according to unofficial statistics, the American League had the best of the training games with the National League. The American League teams won 41 from their National League rivals, while losing 36. The New York Giants were the worst offenders, winning 6 and losing 11. The Braves won 12 and lost 11 from the American Leaguers, however, and the Cincinnati Reds also had a slight edge, 5 to 4. That's some supremacy, anyway. . . If Tex Rickard were around the diggings now, he might be promoting a little hockey on the side. During the season just ended, the Boston Bruins were sold out in every one of their home games, 22. They played to about 300,000 fans during the league season, and at \$1.50 a head, that means nearly half a million seats. Inviting proceeds, say we.

Too Much Chin
JIM JEFFRIES says Primo Carnera's chin is too big, reports Tom Laird of San Francisco. Jim says all big chins are glass and they crack easily. Not only that, but a wonderful target. Maybe Jeff knows. . . Out on the coast the other day, three fine young men held an innocent meeting. One was

DID YOU KNOW THAT—
MICKIE FINN of the Robins is reported to be a young man well able to take care of Mickey Finn. He doesn't care to be teased and is a capable boxer. Babe Ruth says Johnny Fredericks is the best ball player on Robbie's team. . . It is said Babe Herman once swung at a pitch to first base, but the rumor is unconfirmed. . . However he swings at everything else. . . And hits every once in a while, too, as you may have noticed. . . Bubbles Hargrave says that Herman got his wild swinging style from painting ships in a California shipyard. . . Primo Carnera's best purse to date has been his first, in New York, \$18,851. He got \$16,000 in Philadelphia against Roy Clark and \$15,000 in St. Louis against Chuck Wiggins. . . Clark blacked his eye and Leon Chevalier whom he fought in San Francisco the other night, knocked him down in the first round. . . Horsemen say that a mean or cunning horse never will attack an intoxicated man or a child.

Jack Kearns, who is handling George Godfrey's affairs for Jimmy Doughtery. Another was Bill Dury, the brains behind the Carnera bum-thumping crusade. The third was Anell Hoffman, coast promoter. When shall these three meet again? . . . Jimmy Zinn, the pitcher who always had something the matter with him when Peck would call on him to pitch for the Cleveland Indians, is going great guns out on the coast for the Frisco Seals. Jim has the stuff, all right.

A Merriwell Angle
DURING a relay the other day on the coast between the University of California and Olympic Club teams, Bill Barlow pulled a muscle and fell. Bill Blas, California broad jumper, leaped to the track, snatched Barlow's baton and carried it forward. It was against the rules but Coach Charley Hunter didn't protest, so the impromptu substitution was allowed. California, however, lost the race by a yard. Sounds like those Merriwell stories. But, would Coach Hunter have protested if California had won?

of play was Mrs. Sam Hopkins of Texarkana, teammate of Mrs. Pharr and president of the Texas association. She lost to Mrs. R. E. Winger of Fort Worth, 1 up, after having led, 4 up, through nine holes. For the second round today Mrs. Pharr is paired against Mrs. C. O. Collins of Fort Worth. In the qualifying play yesterday Miss Emily Wadley of Texarkana won the medalist honors by shooting an 86, two over women's par to lead the field of 95 entries.

Little Rock Club Gets New Catcher
"Ginger" Shinault Is Bought From American Ass'n.
 LITTLE ROCK, April 30.—The catcher the Little Rock club has been

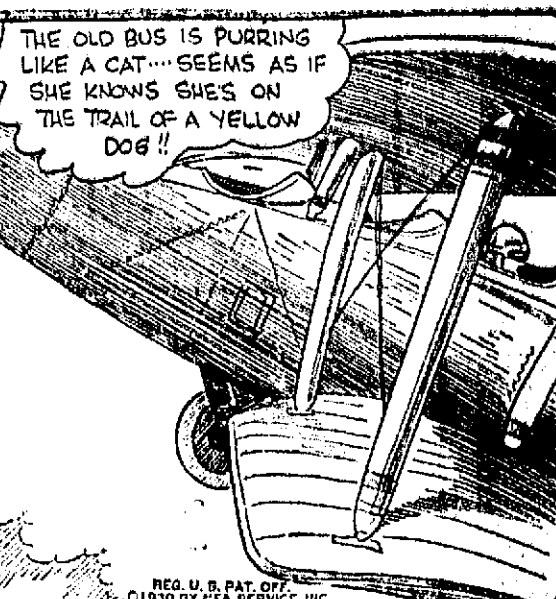

FRECKLES AND HIS FRIENDS

FARBAR AND HIS GANG HAVE SETTLED DOWN IN ONE'S CANYON AND FRECKLES, WHO THEY HAVE TAKEN WITH THEM TO PROTECT THEMSELVES, DOESN'T KNOW WHAT IT'S ALL ABOUT—YET!! MEANWHILE, THE SECRET SERVICE AIR SQUADRON HAS SPREAD OUT—EACH ONE ON A COURSE OF ITS OWN—

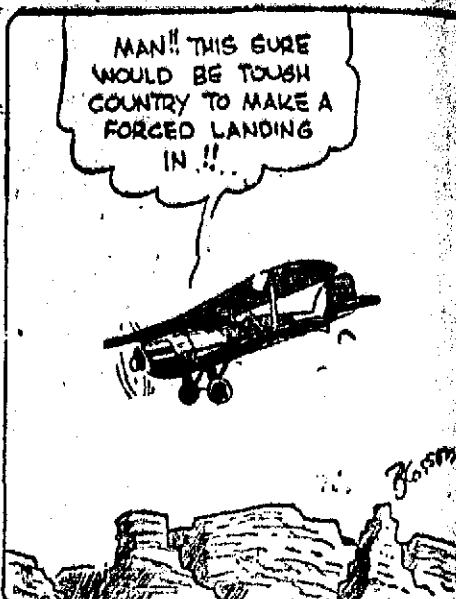

A Secret

WITH A FULL LOAD OF GAS, RILEY TAKES OFF WITH HER WIDE OPEN, HEADED FOR THE DESERT

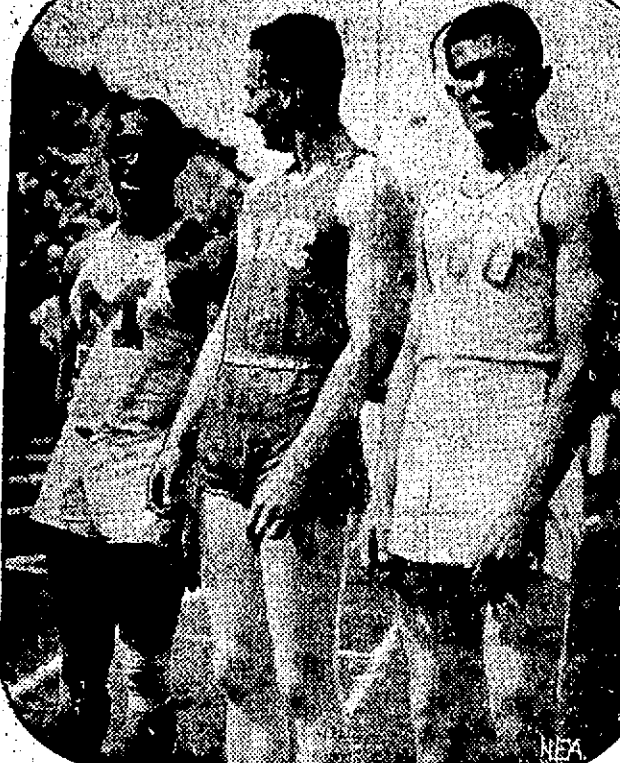

By Blo

looking for every since the serious illness of Bob McMenemy became known has been located. He is Enoch ("Ginger") Shinault, veteran of the American Association, and an Arkansas boy. Shinault did some of his early catching with the town team at Monticello. Shinault has been bought from Milwaukee of the American Association, the deal being announced last night by President R. G. Allen of the Travelers. The new catcher is expected to report here today or tomorrow. Last year with Columbus, Shinault caught 110 games and batted .291 in 117 games, being used some as a pinch hitter. He made 33 hits for 140 bases, the extra-base blows including 25 doubles, four triples and five home runs. He had 11 sacrifice hits and stole two bases. The arrival of Shinault will give the club three catchers with only two to be carried. Which two was not revealed last night. Johnny Smirch, who came from the Pacific Coast just after the Southern season opened, has been used in the last two games played here with Chattanooga. Disappointed over the failure of the club to win President Allen and Manager Jack Steele have started several deals for other players and some changes are promised soon in the hope of strengthening the team.

Big Shots and Big Shot Man at Drake

The smile on Eddie Tolson's face isn't one of victory, for once again Michigan's dark-skinned sprinter trailed Cy Leland of Texas Christian University to the tape in the 100-yard dash of the Drake Relays. Leland also won from his arch rival, Claude Bracey of Rice Institute. The time for the century was 9.6 seconds. Big Jim Bausch, right, of Kansas, established a new shot put mark at the Drake Games by winning the event at 49 feet 1 1/4 inches. It was Bausch's fourth triumph in major relay contests this season.

Paddock Named In Balm Suit

Ex-Champion Sued for \$100,000 By Ex-Fiancee

NEW YORK, May 1.—After having been overtaken twice by Cupid, Charles W. Paddock, Olympic sprint star known as "the fastest human," also has discovered that another good runner is old man Heartburn. Paddock sprinted away from his engagement to Miss Luberty in September, 1925, at Pasadena, Cal., about weeks before his scheduled wedding date. The young woman charges, she had gone to the West coast, less New York August 20, to visit Paddock's parents at his request, her complaint continues. Questioned Wednesday on why engagement was broken off, the young woman refused to answer. "Let Mr. Paddock explain that," she said. "I left the home of his parents after staying there two weeks. We were to have been married at time before the end of October." Miss Luberty, now 26, met Paddock in Honolulu, where he had gone on a track meet. Two years ago she met again in New York, and fell love with each other, her story goes.

Papers in a \$100,000 breach of promise suit were served on the April 29, by lawyers for Miss Luberty, who says Paddock broke her after public announcements of their engagement in Cleveland. Frank Balletta, the attorney, closed the service which took place in the apartment of Miss Luberty, described as the runner's manager. Paddock's parents at his request, her complaint continues. Questioned Wednesday on why engagement was broken off, the young woman refused to answer. "Let Mr. Paddock explain that," she said. "I left the home of his parents after staying there two weeks. We were to have been married at time before the end of October." Miss Luberty, now 26, met Paddock in Honolulu, where he had gone on a track meet. Two years ago she met again in New York, and fell love with each other, her story goes.

6 Boxing Matches At Rink Tonight

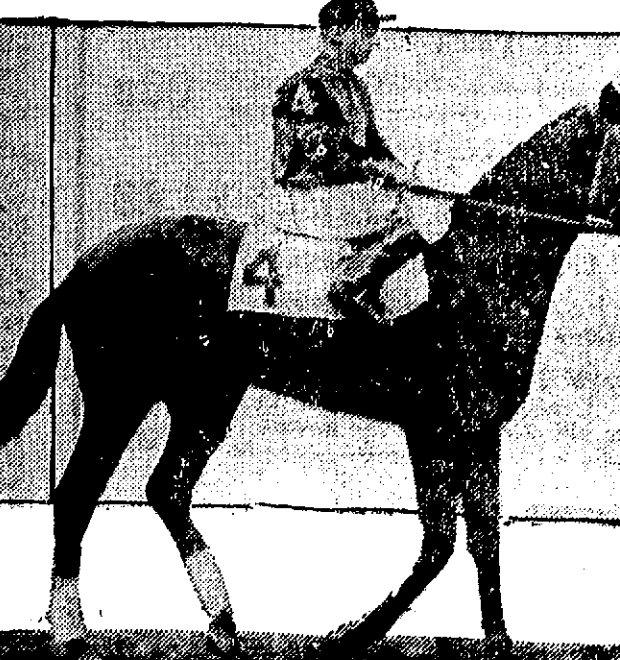

Large Crowd Is Expected, Fights Are Announced

The Hope skating rink, recently released by Leo Robins and Robert Campbell, local men, will be the scene of six boxing matches tonight. This will be the opening of prize fighting in this city, and plenty of action is promised for fight fans who attend the initial bouts at the rink. Carpenters have completed work on rebuild the ring, and have erected seats and bleachers to accommodate a large crowd on the opening night. The American Legion is sponsoring the fights, under the direction of Robins and Campbell. The card will open with a battle royal, with the following bouts scheduled:

Three rounds, Young Breed, 110, vs. Willie Davis, 108. Five rounds, Freacher Walker, 130, vs. John Brown, 126. Four rounds, "Comedy King" Poindexter, 150, Hope, vs. Jack Ward, 143. Stamps. Six rounds, Willie Jackson, 180, Hot Springs, vs. Battling Hooks, 176, Stamps. Two other bouts are scheduled, but had not been announced early today. Tickets are on sale at Webb's News stand.

The best previous year that the Yankee golfers have ever enjoyed on British soil was 1926—the year that Bobby Jones captured the British Open for the first time at Lytham and St. Anne's. Jess Sweetser won the British Amateur at Muirfield and the two combined to help America triumph in the Walker Cup matches

Rates Wise Derby Money

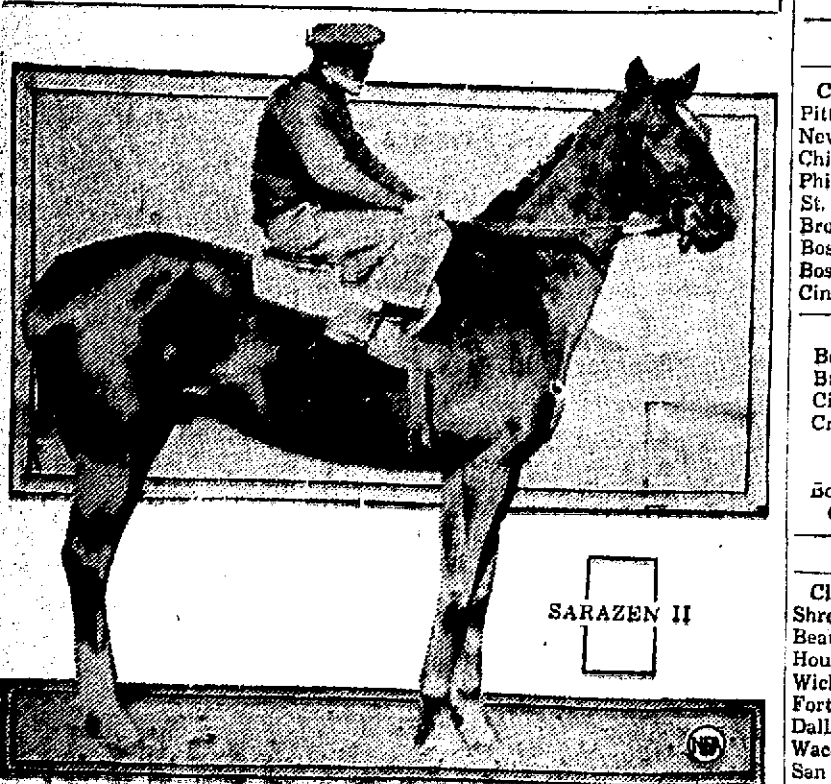

Many of the wise followers of the Derby are said to be riding with Spinach, a chestnut colt with good blood lines. Spinach is one of two entries from the stable of William Ziegler, Jr. His parents are Sir Martin-Sweet Thyme.

Mrs. Pharr Texas Tourney Favorite

Champion of Two States Wins Her First Match

TEXARKANA, April 30.—(P)—Mrs. F. E. Pharr of Texarkana became a pronounced favorite to retain her championship in the Texas Women's golf association tournament Tuesday when she defeated Mrs. F. C. Rochon of Wichita Falls, 6 and 5 in her opening match. The Texarkana star, who holds the championships of both Texas and Arkansas, was shooting the same steady golf that marked her play last year, although she but recently recovered from a long illness. She had her opponent four down at the turn and won easily. A surprise victim of the first round

This "Sarazen" Is In Derby

The namesake of a famous runner is expected to receive heavy backing in the Kentucky Derby. He is Sarazen II, chestnut son of High Time. His most recent accomplishment was a victory by four lengths in the Preakness Handicap at Jamaica. Sarazen II was named by Mrs. Graham Fair Vanderbilt, his owner, and is being groomed for the Derby by trainer Alex Gordon.

NITROGEN is the GROWTH ELEMENT

Are you giving your crops enough NITROGEN?
FARMERS everywhere know that nitrogen is the fertilizer element that makes plants grow. But not all farmers know when and how to use nitrogen so as to get best results. Some use it merely in their mixed fertilizer at planting time. Others use it as top-dressing or side-dressing after the plants are up. There are many farmers, however, who have found that it pays, and pays big, to do both. At planting time they use a complete fertilizer—rich in nitrogen. Then when the young plants begin to feed heavily, they put out a side-dressing or top-dressing of Arcadian Sulphate of Ammonia. It's the nitrogen in the fertilizer applied before growth begins that gives the young plants a firm stand. And whatever your crop—corn, grain, fruit or truck products—it's the nitrogen 'in the top-dressing applied after growth is well started that boosts the stand along to early maturity and a bumper yield. These are facts which you can easily verify by writing to your State Agricultural Experiment Station or by demonstrating for yourself. Arcadian comes in triple-ply, moisture-proof bags. It is always fine and dry, and easy to distribute. The nitrogen's all soluble, all quickly usable by the plants. Farmers, let us know if we can help. To be sure of your supply—order Arcadian from your dealer when you buy your mixed fertilizer. Farmers everywhere are invited to write to The Barrett Company for helpful information about their nitrogen fertilizer problems. Address our nearest office.

Tiny Theatre Built in Studio

Chicago, April 30.—(AP)—Visitors' galleries, resembling tiny play houses, are the latest contributions to the comfort of the theatre.

At present studio callers no longer will form, accommodate 50 persons. The chair, and visitor's shield shield seats, upholstered in red velvet, reflect the comfort of the parlor armchair, and visitors may lean back and

have to return home tired from hours of twisting and shifting on their feet after watching their favorite artists perform. For WEN's new \$150,000 broadcasting quarters, located on the top three floors of the 43-story Chicago civic opera skyscraper, has all of the theatre conveniences in its guests' galleries.

These amphitheatres separated from the studios by a triple glass curtain are an innovation for the gallery gods. The gallery of the main studio, with five rows of seats on a terraced plat-

It's The Ensemble Idea This Year In Buying Clothes For Men Folk

About two and a half years ago the ensemble idea in men's wear was inaugurated by leading manufacturers and retailers in most sections of the country. Today that idea developed with amazing rapidity.

With the opening of the spring season on this thought of combining the proper styles with the right color tones will be pushed stronger than ever. It is believed that this idea has taken a permanent hold on the public—at least it is emphatically reflected in the tastier dress of the average man.

Greater Demands for Ensemble Suits recently in an interview. "The ensemble idea has made men more careful about his dress and buying. You notice the wrong combination of wrong shirt, tie and suit more than you did a few years ago, and think less of the person with the wrong combination. This has, no doubt caused the greater demand for ensembles."

Now the retailer offers complete sets of furnishings in single colors or shades, such as sets of blues, browns, reds, etc. This tends to make sales balance the output of the manufacturers and converters, so that surplus stocks are reduced to the minimum.

musicians. The tone of the main studio is predominant throughout the entire station. The studios are engineered with particular attention to acoustics, lighting effects, and decorations. The room are all designed in decorous fashion, ranging in color schemes from a soft pale green to a black and gold marbled tile.

Besides a music library containing more than 80,000 sheets of music, in addition to artists' lounges and women's rest rooms, there are six sound proof rooms that may be used as studios, audition or rehearsal rooms.

SHERWIN-WILLIAMS PAINT HEADQUARTERS

Buy your paint on the job basis . . . and save

SWP—the world's best house paint—costs less on your house than cheaper paint. This is because its wonderful body thoroughly covers more square feet of surface per gallon. Therefore its slightly higher price per gallon is more than made up by the fewer gallons needed for the job. That is why you should buy by the job—not by the gallon.

The beautiful, weatherproof SWP colors and its tough film last twice as long as cheaper paints. That means that you save from 50% to 60% on repainting when you use SWP. It is the world's greatest house paint bargain. Note the many Friday and Saturday Suggestions we offer this week.

FRIDAY AND SATURDAY SUGGESTIONS

SWP House Paint

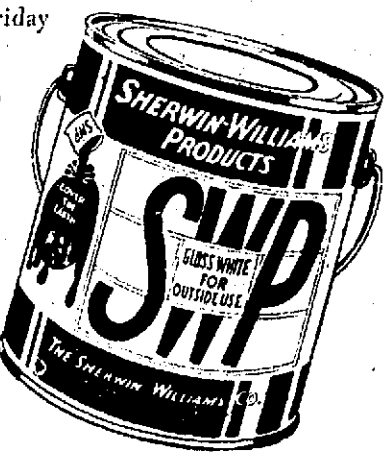

The world's standard of house paint quality. SWP is made in one quality only and that the very best. Famous for long life and the permanency of its many beautiful colors. Covers more square feet of surface per gallon. Costs less on the house than cheaper paints at a lower price per gallon. Regular colors, per gallon \$3.60

Sportswriters To Meet at El Dorado

Cotton States League Writers Will Be Represented

EL DORADO, May 1.—(AP)—The third regular meeting of the Cotton States Sports Writers association will convene here next Sunday, Ralph Brewer, of Alexandria, La., president has announced.

Sports writers of newspapers in the Cotton States League circuit will be in attendance from Alexandria, Lake Charles, Baton Rouge and Monroe, La., Pine Bluff and El Dorado, Ark., and Jackson, Miss., Vicksburg, Miss., the only other city in the Cotton States circuit, is expected to send a delegate to Sunday's meeting.

Membership in the association is not limited to baseball writer alone and members of the association will consider applications from sports writers from Camden and Fordyce, Ark., for enrollment in the organization. President J. A. Crenshaw, director of the El Dorado Oilers, will entertain the sports scribes at a luncheon during the meeting. Business sessions will be conducted in the morning and afternoon.

In addition to President Brewer, officers of the association include George V. Lofton, El Dorado Daily News, vice president; Edgar B. Chestnut, Pine Bluff Graphic, secretary, and Miller Hollinsworth, Monroe, La., Morning Post, treasurer.

Hot Springs Gets New Daily Paper

HOT SPRINGS, May 1.—A new evening daily that will bear the name of the Hot Springs Times, and which will publish a Sunday edition, will be issued within the next 60 days. Interested in the project are several well known business men here, together with New York capitalists. More than sufficient capital to assure success of the publication has been subscribed. Members of the new organization have not been announced.

70 Attend
